

Education

Carnegie Mellon University , Pittsburgh, PA PhD candidate in Computer Science. Advised by Professors Deva Ramanan and Mahadev Satyanarayanan.	2024 (expected)
Stanford University , Stanford, CA MS in Computer Science.	06/18
Stanford University , Stanford, CA BS in Computer Science , minor in Management Science and Engineering.	06/12

Professional Experience

Engineering Manager and Technical Lead , Palantir Technologies, New York, NY - Led R&D efforts to improve Palantir's Foundry data platform: - Created interactive search and analysis infrastructure that evolved into one of the primary user interfaces of Palantir's Foundry data lake platform deployed across the company's customer fleet - Invented full-text search system that powers Palantir's internal log analysis infrastructure and a significant part of the Foundry data lake platform - Led inception and rollout of one of Palantir's flagship data analytics products - Managed the technical implementation of a variety of high-profile customer engagements in the commercial sector (leading teams of 10-100+ individuals) - Supervised and mentored a team of 7+ direct reports	08/12-08/19
Cofounder , TradeSensei, Palo Alto, CA - Founded a trading startup and wrote the backend infrastructure enabling beta users to participate in real-time trading competitions - Participated in Stanford StartX accelerator program	01/12-08/12
Software Engineering Intern , Addepar, Mountain View, CA - Worked on developing a software platform to help private financial advisors and family offices perform quantitative analysis, better visualize financial data, understand risk, and interface with their clients	04/11-09/11

Research Experience

Graduate Research Assistant, Dept. of Computer Science , Carnegie Mellon University - Conducting edge-computing and computer vision related research under the guidance of Professor Mahadev Satyanarayanan	08/19- Present
Graduate Independent Study , Stanford University, Stanford, CA - Conducted research under Professor Alex Aiken and contributed to the Legion programming system - Implemented the Barnes-Hut simulation in a novel parallel programming language and benchmarked it against the Sherlock supercomputing cluster	01/18-06/18
Research Assistant , Stanford University, Stanford, CA - Conducted computer vision research under Professor Daphne Koller - Co-authored two accepted conference papers	06/10-12/10

Teaching Experience

- Graduate Student Instructor, Dept. of Computer Science, Carnegie Mellon University** 09/20-
Present
- Teaching assistant for 15-640 (Distributed Systems) and inaugural 17-700 class (Data Science and Machine Learning at Scale)
 - Support and mentor team of undergraduate teaching assistants
 - Create and grade assignments, exams, and class projects
 - Design and present lecture materials
 - Support students during office hours and class forums
- Project Mentor, Dept. of Computer Science, Carnegie Mellon University** 09/20-
Present
- Designed a term project for 15-821 (Mobile and Pervasive Computing)
 - Meet and provide guidance to project members on a regular basis

Publications (Reverse Chronological Order)

Patents

- [1] **Haithem Turki**, Robert Fink, Amr Al Mallah. "Systems and Methods for Indexing and Searching." US Patent 2019/0347343 A1, filed June 8, 2018, and issued November 14, 2019.
- [2] **Haithem Turki**, Sander Kromwijk, Stephen Cohen, Yixun Xu, Feridun Arda Kara. "Systems and Methods for Constraint Driven Database Searching." US Patent 2018/293239 A1, filed April 11, 2017, and issued October 11, 2018.

Additional Information

- **Volunteer Activities:** Alchemist Accelerator (mentor and investor)
- **Languages:** Fluent in French and Arabic. Currently learning Japanese and German.
- **Other Qualifications:** Eberly Future Faculty Program. Top Secret security clearance (current). FINRA Series 65. Graduate of the Stanford StartX startup accelerator.
